PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building internal and customer-facing applications for capital markets, insurance, cloud services and the pharmaceutical industry. Specialized in NestJS and Next.js, scalable architectures, relational and non-relational databases, third-party and legacy system integrations, and process automation. Third-year Information Systems Engineering student at UTN.

WORK EXPERIENCE

Centaurus Securities S.A.

Buenos Aires, Argentina · Hybrid

Full Stack Developer

Jun 2026 – Present

- Build internal and customer-facing applications for capital markets: client onboarding, mutual funds (FCI), instrument manager and several business features.
- Integrate and synchronize platforms with the industry's leading providers and systems.
- **Technologies:** NestJS, Next.js, TypeScript, MariaDB, MongoDB, AWS (Cognito, S3, Secrets Manager, SNS, etc.).

Vefixy

Buenos Aires, Argentina · Hybrid

Full Stack Developer

Aug 2025 – May 2026

- Built internal and customer-facing applications for a cloud services provider: management dashboards, billing and service provisioning.
- Managed and operated Proxmox virtualization nodes and automated infrastructure and deployments.
- **Technologies:** NestJS, Next.js, TypeScript, PostgreSQL, Docker, Proxmox, Linux.

Gestión y Servicios S.R.L.

Argentina · Remote

Full Stack Developer

Oct 2024 – Aug 2025

- Built internal portals for team administration and management at a company that manages several insurance firms in Argentina.
- Developed customer-facing applications for clients and policyholders.
- **Technologies:** NestJS, Next.js, TypeScript, PostgreSQL, MongoDB.

Droguería Garzón S.A.

Argentina · On-site

Full Stack Developer

Jan 2022 – Sep 2024

- Led the full migration of legacy systems to modern technologies.
- Built integration APIs for COBOL systems, the company's e-commerce platform and its corporate portal.
- Implemented ETL processes and business automations with Power BI reporting.
- **Technologies:** Node.js, React, Next.js, MySQL, Python, Power BI.

Laboratorio Albula S.R.L.

Argentina · On-site

Frontend Developer

Jan 2021 – Jan 2022

- Developed landing pages and corporate websites focused on SEO and performance.
- Managed Meta Ads and Google Ads campaigns alongside the marketing team to strengthen the brand's digital presence.
- **Technologies:** React, Vue, JavaScript, WordPress, Google Ads, Meta Ads, SEO.
